Kids in Action

April 2004

Pre-Kindergarten 1

The Pre-K1 class has been very busy going on field trips in the last few weeks.

Our latest field trip was to Hometown Buffet. The children went there for lunch. They choose the food they wanted and served themselves. There was macaroni and cheese, jello, strawberries and lots of other yummy food. All used their best manners for the entire lunch. The grand finale was ice cream with colored sprinkles. The students returned to school with full tummies and happy faces. Norma

Pre-Kindergarten 2

Recently this class explored Happy Hollow. They visited and fed the animals. Watching the kids and the goats play together is always fun.

The students then enjoyed the rides before moving on to the puppet show. The puppet show, *Anansi, The Spider-Man of Africa*, was the highlight of the day! The kids were totally fascinated with the show. Monica

Pre-Kindergarten class

Kindergarten 1

Hi! The Kindergarten class has had a creepy crawler month!

We visited Alum Rock Park and enjoyed the sunny outdoors. On our hike we found fuzzy caterpillars and learned how they turn into beautiful butterflies! We also saw slimy slugs and learned about the flowers on the trail. This was definitely a fun adventure. Courtney

Kindergarten Prep

On Monday Kindergarten Prep did a unit on color, for Science. The kids learned that blue, red and yellow are the primary colors. They then learned that when they are mixed they create orange, green and purple.

They had a wonderful time mixing the colors themselves and painting them onto their very own color wheels. As they mixed the colors and saw that they had created something new, their faces lit up with awe and excitement.

Pre-Kindergarten class

We will definitely be doing more units on color. Susana

Tot's

When leaving for a field trip the Tot's are always so excited and happy. They are an adventure-loving group.

During the duck pond trip, it was fun watching the kids get so excited just watching the ducks. A few even asked if they could please swim with the ducks! I did manage to suggest an alternate activity! Tess

Kindergarten 2

After the kids were all secured in their car seats, they were off to the library for "story telling time". All were interested in the stories, and listened with excellent manners. The students also participated in answering the story tellers questions. I was very happy to see all of my class singing and participating. This was an enriching experience for the class. Lynn
